

Please accept this as public hearing testimony for the following 5 bills:

1. Oppose SB 522

I strongly oppose any bill that would allow more people to run around in the woods shooting guns. This is so unpleasant, not to mention dangerous, for the rest of us who might like to simply go for a walk.

2. Oppose HB 5499

Please do not expand Sunday hunting. We would like to be able to go for a hike in the woods with our dogs without getting shot. Aren't there enough guns around already?

3. Support HB 6335

The United States has banned the trade of African elephant ivory. In addition, ivory sales have been banned in California, Hawaii, New Jersey, New York, Oregon and Washington. Isn't it time for Connecticut to catch up with the rest of these states while there are still some of these magnificent animals left?

4. Support with Amendments SB 942

Seriously, Connecticut legislators, was there a single one of you who was not broken-hearted when the dentist from Minnesota shot Cecil? Please oppose trophy hunting.

5. Support HB 5613

Please allow municipalities to ban trapping if they so choose.

Sincerely,

Wendy Horowitz
New Haven
